

## About Me

---

I am an **aspiring Frontend Developer** passionate about **building responsive, user-centric web applications** using modern technologies. My core expertise lies in **React.js**, **Next.js**, and animation libraries like **Framer Motion** and **GSAP**, through which I craft smooth, engaging user interfaces. Currently I am expanding my backend skills with **Node.js**, **MongoDB**, and learning to manage databases using **Prisma ORM**. I enjoy working on real-world projects, collaborating with teams, and continuously improving my development workflow. I am eager to contribute to innovative projects where I can apply my skills and grow as a **software engineer**.

## Experience

---

### Jio Platforms Limited

Dec 2023 – Present

*React Developer*

*Navi Mumbai*

- Created small, reusable components to make the app easier to manage and update.
- Collaborated with designers and senior developers to implement new features.
- Organized and structured React components to improve maintainability and scalability.
- Handled dynamic data and side effects using `useState` and `useEffect` hooks in React.

## Projects

---

### Coach AI

*Technologies: NextJS, Tailwind CSS, OpenAI GPT API, Clerk, Node.js, Express.js, Prisma*

- Developed a career guidance platform that uses OpenAI's GPT to provide personalized career advice, resume tips, and interview preparation. Users can interact with the chatbot for real-time support in different career domains.

### iPortFolio

*Technologies: ReactJS, Tailwind CSS, GSAP*

- Designed and developed a responsive personal portfolio website using ReactJS to showcase projects, technical skills, and work experience.

### Find Your Doctor

*Technologies: HTML5, CSS3, JavaScript, Bootstrap*

- Developed a web application that allows users to search and locate nearby doctors based on their specialization and location.
